

G. C. Fowning, Editor & Proprietor.

SATURDAY..... MAY 3 1862.

Leadville will soon have street cars running.

The Ohio Democrats instructed for Thurman.

There will be over 100 miles of track of the Utah Southern laid in Lincoln county.

J. W. McWilliams has been appointed express agent at Battle Mountain, vice Alex. Robinson.

Though California has had many excellent Governors, the present executive will rank among the very best.

Burlington, Iowa, according to mortality statistics, is the healthiest city in the United States; Stockton, Cal., stands next.

The Mississippi delegates are unstructured. It is understood that their preferences are six for Sherman, five for Blaine and five for Grant.

The Tennessee delegates to the Chicago Convention were requested to recommend for nomination for Vice President of the United States Hon. Horace Maynard.

New Hampshire, New Jersey, Maryland and Delaware held Republican State Conventions Thursday. While only Maryland gave instructions, the prevailing sentiment of all was for Blaine.

"The business boom" is turning the other side up. At a meeting of the Western Nail Association at Pittsburg, Pa., it was voted to reduce the price of nails from \$5 25 to \$4 per keg of 100 pounds.

The Chicago Tribune says that the counties in Illinois which are overwhelmingly Democratic are very ready to instruct for the ex-President, but most of the Republican ones have thus far declared for Blaine.

The House Committee on Indian Affairs has recommended, by a vote of over two to one, the passage of a bill to transfer the Indian Bureau from the Interior to the War Department, the transfer to be made in July of next year.

It is stated at the Postoffice Department that there has never been a time in the history of the Government when so many new Postoffices were being established. There is also a largely increased volume of postal business all over the country, especially in the West.

Facetious newspapers continue to poke fun at Rhode Island, because of the smallness of her territory. One of them says, "Rhode Island will soon enjoy clam bakes; but the tables will be set in Massachusetts, and the shells will be thrown into Connecticut."

The proprietors of The Public Ledger, of Philadelphia, are to build a new office for their paper, which will probably cost \$800,000. The one they now occupy, at Sixth and Chestnut streets, is one of the most costly newspaper buildings in the country. Most publishers would be satisfied with it.

The Richmond (Va.) Commonwealth has received letters from prominent Democratic citizens of that State on their preferences as to the nomination for President. The majority are for Field as first choice and for Bayard as second. McDonald, of Indiana; Randall, Hauck and Church are also mentioned for the Vice Presidency.

Ex-Collector Simmons, of Boston, remarked in a recent interview that the prevailing feeling among Massachusetts Republicans is in favor of the ex-President. Blaine has more enemies than friends among them and would never receive the full vote of the delegation at Chicago. The State, however, will give 40,000 majority for the Republican nominee.

No dividends will be paid this month by the Consolidated Virginia and California Companies, owing to a light bullion yield. According to the official figures given in Tuesday's Post, the Consolidated Virginia Company had a surplus of \$245,274 38 in coin and 44,873 ounces unsold bullion in the treasury, while the California Company had a coin surplus of \$19,207 83.

The Jesuits, preparing for their approaching departure from France, have just bought one of the most splendid properties in Spain, the chateau near Madrid belonging to the Duc de Pratiana. The Due de Pratiana's gallery of pictures is famous, and there are only three other private collections in Spain to equal it—that of Don Jose Madrazo, that of the Marquis de Remire, and that of the Duc de l'Infante.

BLAINE'S CHANCES.

The Presidential table is now about as follows:

	1860	1861	1862
Arkansas	12	12	12
California	12	12	12
Connecticut	4	6	2
Georgia	2	12	6
Iowa	22	22	22
Kansas	10	10	10
Kentucky	24	24	24
Maine	14	14	14
Massachusetts	26	26	26
Missouri	30	30	30
New York	70	17	17
North Carolina	3	6	6
Ohio	44	44	44
Oregon	6	6	6
Pennsylvania	58	58	58
Rhode Island	8	8	8
South Carolina	14	14	14
Vermont	10	10	10
Virginia	22	22	22
Washington Territory	2	2	2
Utah	2	2	2
District of Columbia	1	1	1
Tennessee	24	24	24
Wisconsin	1	7	3
Now Hampshire	10	10	10
New Jersey	10	10	10
Maryland	16	16	16
Mississippi	5	6	6

This makes the total for Grant 282; Blaine 152; Sherman 77; Edmunds 38, with 9 for Washburne from Wisconsin. On Tuesday Nevada will add 6 to Mr. Blaine's column, and on Wednesday Michigan and West Virginia will add 32, which will give him 190. Colorado with 6, Delaware 6, the Territories 10, Minnesota 10, Indiana 28, Nebraska 6, swell the total to 256. From Pennsylvania and New York he will probably have 50 votes. This still leaves him 73 votes short, with Illinois, Ohio, Alabama and Florida to hear from.

We figure that the vote on the first ballot will stand: Grant 290; Blaine 310, Sherman 100, Edmunds 40, Washburne 10.

Australia and America.

[New York Herald]

Although Australia cannot hope, for a few years, to equal America in the quantity of her agricultural products, the rivalry she promises in the way of competition in European markets is not to be despised. She is much further from foreign markets than we are, and consequently will always be subject to three times as heavy drawbacks in the way of water transportation; but this difference is more than counterbalanced by the fact that her surplus products are at present far nearer home markets than ours are, and are consequently saved from costs of carriage that here are great enough to keep many farmers poor. Her farming is not conducted on the haphazard, wasteful system, or lack of system, that prevails here; the high civilization that English farmers have for a century or two practised prevails in Australia, as well as the economical habits of the mother country, so that in competition in price, which is improbable in breadstuffs but quite likely in meats, dairy products, fruits and other articles of growing importance in export trade, our farmers will find themselves at disadvantage unless they improve their ways. Australia has just as large an area as we, if Alaska be excepted, and although her population is but about one-twentieth of ours, owing to the lack of any but home markets, there will be a great change in this respect if the discouraged farmers in England prove to them that they can make more money by supplying their country from ten thousand miles away. The great island in the South Pacific is our most dangerous prospective agricultural rival.

PULLMAN COACHES.—George M. Pullman, of palace sleeping car fame, who recently came to this coast in his private car upon a business trip, has again returned East with impressions and expressions highly complimentary to the Golden State. While upon the coast, arrangements were made with the Oregon Railway and Navigation Company, of which he is a Director, to place four of the Pullman palace sleepers upon that road this Fall. The Pullman Palace Car Company, which is located in Chicago, now operates about eight hundred cars in this country and Europe, representing a cost of about \$13,000,000. The average distance run by each car per year is about one hundred thousand miles. No cars are sold by the company, but they are placed upon the road of any company with whom a contract is made for their use, the Pullman Company receiving as a rental compensation the extra charges made for sleeping accommodations, and the railroad company having the regular first-class fare of passengers carried in them. The repairs to the coaches are sustained by the Pullman Company, except upon such roads as the relative income from use of sleeping berths is disproportionately small as compared with receipts by the railroad company from its use by day passengers, when by special stipulations the coaches are kept in repair by the company upon whose road they are used. Mr. Pullman's private car is built, as would be expected, with the skill and conveniences of which the company is capable, and is a model piece of work for homelike comforts and enjoyment while traveling. Its arrangement provides the most perfect dining, drawing-room and sleeping accommodations, and renders "the weariness of traveling" a thing most devoutly to be wished. [Sacramento Record-Union.

Charles Francis Adams is 74, Seymour 70, Tilden 66, David Davis 65, Thurman 61, Hendricks 61, Grant 58, Sherman 57, Hancock 56, McClellan 54, Bayard 52, Conkling 51, Blaine 50.

The Coroners Jury in the case of G. W. Sanderson who was shot through the head in Virginia a few days since, have exonerated Mrs. S. from all suspicion.

Jefferson Davis has accepted an invitation to give a memorial address at Macon, Mississippi, on the Confederate Decoration Day.

FINANCIAL CONDITION OF SEVERAL MINING COMPANIES—OUTSIDE MINES MAKE THE BEST SHOWING.

(S. P. Post, May 4th.)

The publication, in yesterday's Post, of the financial standing of most of the Comstock mining companies, as given in the sworn statements, which must be made monthly under the new law, was greatly appreciated by the stock dealing public. One of our contemporaries this morning, in attempting to give the news, made a sad mess of the figures by placing under the head of "Indebtedness" cash balances, which belonged to the credit of Consolidated Virginia, California, Union and other companies. The correct figures were exclusively published in yesterday's Post. This morning we obtained the financial standing, on April 30th, of several more of

THE LEADING COMPANIES.

Including a few whose statements were not ready yesterday, owing to a misundstanding of the law. The Exchequer Mining Company had cash on hand amounting to \$25,249 81. The Secretary informed us that the expenses at this mine are very light, as only pumping work was being done. He thought that after all the draft for April were settled the company would carry over into the May account a cash balance of at least \$25,000. This is a good financial showing. The Bullion Company had a cash balance on hand of \$29,773 16 and is still collecting an assessment of \$1 per share. This company has for indebtedness bills payable amounting to \$300,000 on account of the recent purchase of an interest in the Ward shaft. The Julia Company had \$14,024 15 cash on hand, and the company's notes are out for \$100,000 on account of the purchase of an interest in

THE WARD SHAFT.

The Justice Mining Company had an indebtedness of \$15,078 78 after deducting the cash on hand and the value of recently purchased supplies. The Northern Belle Mining Company makes a splendid financial exhibit. According to the sworn statement of Secretary Willis this company had an actual cash balance on hand and in bank of \$98,544 85, after paying all indebtedness up to April 30th. This amount will be increased by several bullion shipments which will yet be received on April account. A dividend of

FIFTY CENTS PER SHARE.

Will be declared on the 10th inst. The Standard Consolidated Mining Company, on April 30th, had an actual cash balance of \$136,912 95 over and above all indebtedness. The Bulwer Consolidated Company had on the same date a balance of \$15,908 32 in cash, after paying all debts. The statements of the Bodie Consolidated Company show cash on hand, on April 30th of \$90,227 78, from which liabilities amounting to \$1,919 85 and the expenses of the mine for April, which are yet not known, must be deducted. The outside companies appear to be in a much more healthy condition than the Comstocks. The new law requiring these monthly sworn statements to be made meets with great approbation on the part of the public.

The Mono Mining Company has a cash surplus on hand of \$25,848 35, to which about \$3,500 in assessments not yet collected will be added. The liabilities of the company at date are only \$550 75 in draft, which have been drawn, but not yet presented. The following outside companies, not previously reported, show cash on hand as follows: Syndicate, \$6,431; Grand Prize, \$42,673; Belle Isle, \$4,086; Navajo, \$5,701; North Belle Isle, \$8,621. The following are in debt to the given amount: Independence, \$323; Endowment, \$75,000; and Argenta, \$11,128.

MINING BILL.

A Washington dispatch of May 6th says:

There was an important meeting of Western members at the house of Senator Jones to-night to discuss a substitute for the Public Land Commission bill. Jones and Daggett of Nevada, Campbell of Arizona, Maginnis of Montana, Belford of Colorado, and Berry of California were present. The following bill was proposed and will be offered in the House to-morrow if opportunity allows, it being entirely satisfactory to the Western members. It provides that Section 2,392 of Chapter 6 of the Revised Statutes shall be amended by adding the following: "And in all cases where the mean dip of the land does not exceed twenty-five degrees from the horizon the right to follow the mineral shall not extend beyond the side lines of the location drawn downward vertically, and on any mineral land where there is no outcrop of a vein or lode on the surface of the ground." The party seeking to make a discovery is authorized to locate a prospecting claim of the same size as the claims now allowed by law, and he shall have exclusive possession of said claim so long as he shall expend \$200 worth of work each year in exploring for mineral, and when a vein or lode shall be discovered it may be patented as now provided by law. In case a locator shall fail to perform the annual labor herein required, said claim shall be forfeited and shall be open to relocation the same as though it had never been located; provided the original locator, their heirs, assigns or legal representatives have not resumed work upon the claim after failure and before such location.

It seems a kind of satire to give the name of Greenland to a country covered with snow and ice—which is indeed one huge glacier. But geological investigations prove that the climate of Greenland was once milder than that of New England at the present time. Reindeer were found in abundance of pine, oaks, grapevines, larches, poplars and even the beautiful magnolia, now only native in the South. Traces were also seen of former lakes and rivers. Possibly at some future day a new change may take place and Greenland become the home of a great and populous nation. A slight change in the Gulf Stream would bring this about.

The Jesuits, preparing for their approaching departure from France, have just bought one of the most splendid properties in Spain, the chateau near Madrid belonging to the Duc de Pratiana. The Due de Pratiana's gallery of pictures is famous, and there are only three other private collections in Spain to equal it—that of Don Jose Madrazo, that of the Marquis de Remire, and that of the Duc de l'Infante.

NEW TO-DAY.

FRUIT AND PRODUCE STORE,

VIRGINIA ST., RENO, NEV.
Opposite Pinney & Queen's.

SEEING THE NEED OF A FRUIT AND PRODUCE STORE in the town of Reno, we have started the same, in which we shall endeavor to keep all articles in our line requisite in the County Department, also all of the different fruits of the season, which will only capture the eye, but satisfy the taste. We will also have in section with more.

—A FIRST-CLASS—

ICE CREAM AND STRAWBERRY
REFRESHMENT ROOM.

CARLOW & PHILIP.

PROPOSALS WANTED.

NOTICE IS HEREBY GIVEN THAT THE Trustees selected to build the wagon road over the Lassen Pass will receive proposals for building same, at the Golden Eagle Hotel, Cedarville, Saturday, May 18, 1862. All bids must be in by 12 o'clock M. The road is to be eight (8) feet wide when on a straight line, and in case of a curve or dip to be built wider in proportion to the curve or dip, and is to be built in solid ground. The distance from the head of the pass to the town of Marysville is to be about four (4) miles. The road is to be from four (4) to six (6) inches over than one-half of grade. Full specifications will be furnished bidders on application to any of the Trustees. The Trustees reserve the right to reject any and all bids.

F. K. SMITH,
B. D. DOWELL,
J. D. KINNINMON,
WM. DODGE,
Cedarville.

Enterprise Valley, Modoc Co., Cal., May 14th.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, avail themselves to this question with considerable anxiety. And well they may, for Catarrh is a disease that has long been the bane of mankind, and is as destructive to health as Cancer, Bronchitis, Asthma, Coughs, and various and frequently fatal affections of the lungs follow, in many instances, a short time after the disease has been overcome. Other diseases, such as Jaundice, Impaired eyesight, and loss of a nose or mill, may be referred to as minor but nevertheless serious results of neglected Catarrh, but enough has been written on these subjects to compare with the various afflictions of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The "RADICAL CURE FOR CATARRH" is but a slight deviation from the ordinary remedies used for this disease. The hard, incrusted mucus that has lodges in the nostrils and sinuses, and which is the chief cause of the disease, is removed by the nostril, and the ulcerated and inflamed mucous lining of the head is cleaned and purified. Constitutionally its action is to cleanse the system, and the disease, in its course through the system, the destructive agent in external diseases.

A COMPLICATED CASE.

Complainer.—My case is briefly as follows: I have had a starting in my right nostril, and a constant discharge of mucus, with a slight soreness in the nostril, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and complicate my sight, so I never slept in the night, to sleep in the day, and I never slept in the night. The discharge of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored, I can sleep in the night, and my sight is much improved. I have never been so well in my life, and I have been for years. I could not tell the effects of the Cure on my appetite, on my kidneys, and, in fact, every part of my system. What has been done in my case is a striking illustration of the effect of the RADICAL CURE. Very respectfully,

F. H. DENBY.

Each package contains Dr. Sanford's Improved Cure, Tubular, in a glass tube, 100 grains, Price, 50c. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

The Bodie Extension.

1. E. James, the well-known civil and mining engineer, says the Carson Times, started last Tuesday over the route of this proposed extension of the Virginia and Truckee Railroad in company with James Oliver, who has had general charge of the survey, in order to give the benefit of his experience, and to decide finally just what route to take. The route will soon be begun, and will be a narrow-gauge, three feet wide. Steel rails, varying in weight from 35 to 45 pounds to the yard, will be laid the entire length, and all freight and passengers will necessarily be transferred at the Mound House. We understand that the lot of 56-pound steel rails purchased in England several months ago by D. O. Mills have recently been exchanged for those of lighter weight, suitable for the narrow-gauge. The company will save by the adoption of a three-foot gauge not less than \$250,000 in cost of construction.

Reform Club.

Following is the programme arranged by Mrs. White for the Reform Club entertainment this evening:

Singing by the Club..... No. 130 Recitation..... Byron Good Song..... Dickey Jose Recitation in character..... Nellie Ringo Duet..... Mrs. Amos Alt and Mrs. White Speech..... Rev. C. Mulholland Song by the Club..... No. 09 Solo..... Gertrude Peacock Reading..... E. C. McClellan Solo..... May Finlayson Reading..... Wm. W. R. Jersey Quartette, Measure A. Jose, Fancher, B. Jose and S. Stanaway.

Admission to the entertainment, 10 cents; to the dance, 50 cents.

New Store.

Carlow & Philip have opened a fruit and produce store on the east side of Virginia street, and intend to deserve patronage by keeping everything in that line. The rear apartment in their store will be fitted up for an ice cream and strawberry parlor. Prices will be in accordance with the times. Give the new firm a trial.

Yesterday was the anniversary of the birthday of Mr. Geo. W. Huffaker, and C. Knust and wife, D. McFarland and wife and T. K. Hymer paid him a visit, and assisting in celebrating. They repeat having a good time, and all the gentleman of the party say they intend to "stand in" with Huff on each recurring anniversary.

Annual Report of the C. P. R. R.

In accordance with the new law the C. P. R. R. Co. have at last filed their annual statement with the Secretary of State. They did not file it in the time specified by law, on the ground that they could not compile it in so short a time. The time was therefore extended, as a matter of accommodation. The following is the report in full of the operations of the road up to the 1st day of December, 1879:

The capital stock of the company is one hundred millions of dollars. The amount thereof subscribed is sixty-two millions, six hundred and eight thousand dollars. Amount actually paid, fifty-five millions, two hundred and seventy-five thousand five hundred dollars.

Expended for bonds..... \$ 1,515,266 50 Construction of road..... 135,021,029 02

The cost of building, except shops in Sacramento, is included in the above.

For engines..... \$ 2,693,618 40 For cars..... 5,336,855 37

The cost of cars and engines used in Nevada cannot be given, as they are used interchangeably in California, Nevada and Utah.

INDEBTEDNESS.

Funded debt..... \$57,030,000 00 (less \$4,068,682 90 in sinking fund of debt)

Bills and accounts paybl. 5,678,415 86

U. S. subsidy bonds..... 27,855,880 00

Amt. due Company..... 6,445,057 25

RECEIPTS.

Transporting passengers..... 4,919,254 63

Freight, mail and express..... 11,560,491 41

Other sources..... 1,428,198 16

All the freight transported over the road amounted to 1,864,335 tons.

The amount paid for repairs of cars, engines, buildings and other expenses amounted to \$14,874,613 69.

No dividends were declared for the year 1879.

STOCK ON HAND.

Engine houses and shops..... 47

Locomotive engines..... 236

Passenger cars..... 148

Sleeping cars..... 41

Emigrant cars..... 72

Baggage, mail and express cars..... 56

Freight cars..... 4657

Work cars..... 685

Snow plows..... 9

The net profits for the year were \$3,043,600 51.

The statement is sworn to by E. H. Miller, Secretary of the company.

West Bound Passengers.

The following through passengers are on to-night's train:

Mrs. M. W. Harding, Michigan; Mrs. John A. Cassidy, Indianapolis; S Park, Mrs. C. A. Fish and two children, St. Louis; Mrs. Kingman, Mrs. Wyllie, Chas. A. Curran, Chicago; Mrs. J. J. Fuller, Miss Mary Fuller, Marysville, Cal.; Mrs. W. E. Griffin, Miss Minnie E. Griffin, Pioche, Nev.; John A. Stanley, Oakland; John Beno, wife and two children, Council Bluffs; Mrs. Dohm, Miss Minnie Dohm, Miss Olga Dohm, New York; Mrs. Ingersoll, Laporte, Ind.; Mrs. Garvin, Fremont, Ohio.

Primary Delegates.

At the Democratic meeting last night the following named gentlemen were selected to be voted for at the primaries to-day:

J. C. Hagerman, E. Meyer, J. P. Richardson, F. J. Winchell, D. McFarland, W. T. Berry, B. Lachman, J. Muran, L. J. Flint, J. F. Cookes, G. W. Avery, Mark Parish, L. D. C. Gray, W. L. Knox, Wm. Webster, Jerry Schooling, Chas. Knust, John Sunderland, J. M. Flanagan, J. M. Cunningham, D. D. Bowen.

Grant, Blaine, or Which?

Wise heads are very much troubled to decide the future, but the difference between buying goods at the Great Eastern IXL, or from other city dealers is quite plain to the thousands who throng our store daily. Prices are surely tumbling, and several car-loads of Summer goods to open in the next three days. Save money and time—no bantering at the IXL.

Hon. Chas. Mulholland, Member of the California Legislature from Lassen county, is in town en route home from the scene of his labor.

J. E. Baker, formerly a Reno journalist, is to be connected with the Index, a paper to be started at Lundy, Mono Co., Cal.

The Lassen Pass road is to be built immediately and the Committee advertise for proposals. See ad. elsewhere.

The Fellowcraft degree will be conferred in the Masonic Hall this evening. Visiting brothers cordially invited.

Mr. L. S. Burchard is up from Wadsworth. It is his intention to go to San Francisco and study medicine.

It is now rumored that Jim Keen is coming back to the Coast to give the stock market a lift.

Ball playing is an important industry just now. Nor is the sport confined to small boys.

G. H. Fogg has had a pelican given him. It had been wounded and captured.

There will be a special meeting of the Board of Commissioners on Tuesday next.

W. S. Grass, a prominent citizen of Winnemucca, is a aspirant to the position of Delegate to the Chicago Convention. He is for Bisine first, last and all the time.

There are messages in the telegraph office for Jonathan Morgan, John Sturgeon.

Brown's Household Panacea

is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it warrants double the strength of any similar preparation.

It cures pain in the Side, Back or Bowels, Throat, Rheumatism, Toothache, and all aches, and is the Great Reliever of Pain. Brown's Household Panacea should be in every family. A teaspoonful of the Panacea in a tumbler of hot water, swallowed if preferred, taken at bed-time, will break up a cold. 25 cts. a bottle.

Jan 10th, 1879

Much Stickness.

Undoubtedly with children, attributed to other causes, is occasioned by Worms. BROWN'S VERMIFUGAL COMPOUND, or Worm Lowerer, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely safe in eradicating worms, so hurtful to children. Twenty-five cents a box.
